

A note from: [REDACTED]

4/23/12

Dear Hon. Lisa Jackson,

I urge EPA to move forward with policies to protect underground sources of drinking water from hydraulic fracturing operations using diesel.

The best way to protect drinking water, is to ban the use of diesel in this practice. Diesel in fracking can lead to contamination of drinking water with toxic chemicals like benzene.

Please attend to our concerns on behalf of my wife and our two children.

Respectfully,

[REDACTED]  
Springfield, PA  
19064

OFFICE OF THE  
EXECUTIVE SECRETARY

RECEIVED  
MAY - 9 2012

April 27, 2012

Hon. Lisa Jackson, administrator  
E.P.A.

Ariel RiosBldg.

1200 Pennsylvania Ave., N.W.  
Washington, D.C. 20460

I am writing to strongly urge the EPA to move forward with policies to protect underground sources of drinking water from hydraulic fracturing operations using diesel.

The best way to protect drinking water is to ban the use of diesel in this practice. Diesel in fracturing can lead to contamination of drinking water with toxic chemicals like benzene.

If a total ban is not put in place,  
then the strongest possible protections  
must be required through formal  
rulemaking to give these protections  
the force of law.

Sincerely,

A large black rectangular redaction box covering a signature.

Maple Glen, PA 19002

The Honorable Lisa Jackson  
Administrator  
EPA  
Anne Ross Bldg  
Wash., DC 20460

I urge EPA to move forward  
with policies to protect underground  
sources of drinking water from  
fracking operations using diesel.

The best way to protect drinking  
water is to ban diesel in this  
practice.

Please protect our water!  
Sincerely,

[Redacted] Fort Washington  
PAA

LISA JACKSON,

I URGE EPA TO MOVE FORWARD  
WITH POLICIES TO PROTECT DRINKING  
WATER FROM HYDROFRACKING OPERATIONS  
USING DIESEL.

I IF A TOTAL BAN IS NOT IN  
PLACE THEN THE STRONGEST POSSIBLE  
PROTECTIONS MUST BE ENFORCED TO  
PROTECT PENNSYLVANIANS

Ziggy

ft. Washington, PA 16034

Dear Lisa Jackson,

I urge EPA to move forward with policies to protect underground sources of drinking water from hydro fracturing operations using diesel.

The best way to protect drinking water is to ban the use of diesel. If a total ban is not put in place then the strongest protection must be enforced.

Drexel Hill PA 19026

In urge EPA to move forward with policies  
to protect underground sources of drinking water  
from hydraulic fracturing operations using diesel

Broomall, Pa 19008

Dear Lisa Jackson,  
I urge the EPA to move forward with  
policies to protect our drinking water  
from fracking operations using diesel. The  
best way to protect drinking water is to  
ban the use of diesel in fracking. If  
a total ban is not put in place ~~then~~<sup>and</sup> the  
strongest protections must be required and  
enforced.

Amherst, PA 19102

Dear Lisa Jackson,

Please protect our drinking water.  
Please ban diesel in fracking &  
find a safer alternative.

Through formal rule making, please  
put a safe alternative in  
place.
